

# USB 2.0 Data Link Cable

## Introduction

USB Host-to-Host Bridge Cable is a low-cost and high-performance solution that provides bi-directional connectivity between two USB-compliant host systems. The PC users can inter-share data files with true plug-n-play and hot-swapping operation. Interaction can be accomplished in just seconds.

Compatible with Windows 2000 / XP / Vista / 7 / 8 / 8.1 / 10 / [11](#)

## Specification

Model No.	LINK-E2
Chipset	OTI
USB Data Speed (Mbps)	480 / 12 / 1.5
Data Transfer Rate	16 Mbps
Compliant Version	USB 2.0/1.1
Connector	USB Type A Male x 2
Power Mode	Bus Powered
Operation Mode	Peer to Peer
Cable Length	2m
Housing	Plastic
